COMMENTING ON THE RAJAR FIGURES

Ashley Tabor, Founder & Executive President said: "Securing another record number of listeners for Global stations is a great result for us. It is testament to the investment we've made in our stations and shows and the hard work of the team at Global. Gaining 865,000 new listeners in the past year is a huge achievement for Capital in particular, making it the UK's number one commercial radio brand."

Richard Park, Director of Broadcasting at Global Radio said: "We are hugely delighted that our programming strategy and our engagement with listeners is yielding such impressive results. I am particularly proud that LBC is on such a roll, celebrating its 40th birthday earlier this month, and now posting its biggest ever audience share in London for the brand."
